## Hello!

**I have always enjoyed working with children.** After graduating from college I felt led to work at Chinese Christian Schools (1987-1989). After working in a corporation for seven years and starting a family, I felt God leading me back to the school. I returned to teach fourth grade for three years. I also began working on my teaching credential to better equip me as a teacher. During this time, I decided to apply for a position in administration because **I felt God gave me two gifts. The first is working with children. The second is administration,** which I developed working in the corporate world for seven years. I love the fact I can make a difference in the school.

I enjoy being able to provide the necessary tools and support for teachers so that they can better teach children. God has given me the ability to multi-task, which is highly important for my present position.
