Hello!

He gave me a gift of knowing how young people and children sometimes think wrongly and how they stumble in their thinking about math problems. He also gave me the training to discern details and give simple explanations.

I was working as an engineer after I finished college. I had finished a teaching credential program three years before, but had not gone into teaching yet. One year I had a very heavy burden to get into Christian school teaching at Chinese Bible Church. My thoughts were so preoccupied with the school, the children, the possibilities and work of the ministry, that it was a very exciting time in my life to go and inquire about serving at Chinese Christian Schools.
