## Hello!

**I believe the Lord has given me the gift of teaching.** I love to learn new things and I enjoy using different ways to express or explain ideas (often making it simpler) so that others can understand the concept.

During my junior year of high school, I was considering taking mechanical engineering at college. **However, I love working with people and am so excited when an explanation can help someone to understand a concept.** (I am the oldest of four and have had plenty of opportunities to tutor). During my senior year, I decided Mathematics Education would be a more appropriate major for me. My parents agreed, so I studied math education at Pensacola Christian College.
