

# Rebekah Kotlar

Library Manager; Teacher

#### ■ Education:

Church Ministries, Secondary Education (history)

#### ■ Experience:

- Chinese Christian Schools, 2005-Present
- Preparation:  
Six years in a college library, working directly with the head librarian, provided training in library organization, database systems, patron services, resource selection and management.

#### Hello!

**My greatest joy in the library, both in the college and here at CCS, is providing great resources for students.** Because I believe that a Christ-centered school can provide students with the best foundation for life, I know that I can best serve God in a Christian school.

**My job responsibilities involve organizing and overseeing the operations of the school library.** This includes everything from ordering and processing books to shelving them and helping students find the resources they need.

**The greatest blessings have come from the opportunities to work with students and impact them for life and for Christ.** Frequently, when students enter the library looking for assistance, they are also seeking advice and a listening ear. These visits have led to numerous opportunities to pray for and with students I may never see in a classroom setting.
