Hello!

I feel God has given me grace in the area of teaching 6th grade. I enjoy the age group and am becoming more and more proficient with the curricula.

When I begin studying for my credential, I felt God was leading me to teach in public schools to make a difference in the schools and be the "Christian" teacher that parents and students in public schools could have a relationship with. I didn't realize how difficult & frustrating that was.

After two years of attempting to be a caring "Christian" teacher in the public school, I drove by CCS one day, and I felt God calling me to apply at the school. The school year had already started its first quarter, but there was a need for a 6th grade math teacher. I had student taught in 6th grade and was hoping to find a 6th grade position in History, English, or Math. As the second quarter started, I started as a 6th grade math teacher for two 6th grade sections, and by the second semester another opening had occurred. I began teaching 6th grade History, English, Bible, and one 6th grade math class.
